## SUMMARY

Experienced Full Stack Developer skilled in building high-quality applications and delivering exceptional user experiences. Proficient in modern technologies and Agile methodologies, with a strong focus on collaboration and innovation. Committed to continuous learning and contributing to teams that drive cutting-edge solutions.

## EXPERIENCE

### Junior Associate

#### Kanini Software Solution

August 2022 - Present, Chennai

- Designed, developed, and maintained Omnia applications using C# (.NET Core) on the backend and React.js with Redux on the frontend.
- Contributed to the development of microservices and microfrontends.
- Built and maintained RESTful APIs, integrating with external services and third-party APIs.
- Developed user interfaces and business software components with a focus on performance and scalability.
- Estimated time and effort required for feature development and debugging, ensuring efficient task management.
- Diagnosed and resolved technical issues through debugging and root cause analysis.
- Developed clean, efficient code using .NET Core, LINQ, stored procedures, React, and Redux.
- Collaborated with cross-functional teams, including product managers, designers, and engineers, to define and implement new features.
- Estimated time, effort, and resources required for development, debugging, and feature enhancements.
- Automated build, test, and deployment with CI/CD pipelines in lower environments
- Leveraged LINQ for efficient data querying and performance optimization.
- Orchestrated feature deployments through multi-stage approval processes, maintaining code quality standards
- Managed multiple tasks, effectively planning and mitigating risks to meet deadlines.
- Delivered structured code, collaborating in code reviews, and ensuring successful merge into the main branch after L1 and L2 approvals.
- Facilitated Agile ceremonies, including sprint planning, code reviews, and stakeholder discussions.
- Demonstrated adaptability and a strong learning mindset to acquire new skills.

### Intern

#### Kanini Software Solution

April 2022 - July 2022, Chennai

- Developed a responsive front-end using React for an intuitive shopping experience.
- Integrated frontend components with ASP.NET APIs for seamless data exchange.
- Ensured cross-device consistency using responsive web design (HTML, CSS).

## EDUCATION

### Bachelor Engineering

Electronics & Communication Engineering • Vel Tech High Tech Dr RR Dr SR Engineering College • Chennai • 2022

## SKILLS

- **Programming Languages:** Javascript, Typescript & C#
- **Frameworks & Libraries:** React js, Asp .Net Core, Xamarin & Maui
- **Database:** SQL Server
- **Cloud:** Azure
- **Version Control:** Git, GitLab & Bitbucket

## CERTIFICATIONS

---

- ASP.NET Core - SOLID and Clean Architecture
  - Build ASP.NET Core Web API - Scratch To Finish (.NET8 API)
  - .NET MAUI Mobile App Development
-
